Founder's Message

The aspiration of Tap Fever's Executive Director and Founder, Larisa Hall, is to give dance opportunities to anyone who wants to get on the floor. Dance has been a part of Larisa's life for as long as she can remember, but it didn't come easily at first. Larisa was born with severely clubbed feet, and had to wear casts on both legs as an infant. She slept with a brace to hold her feet and casts turned out, which the medical team hoped would correct the problem. Doctors had their doubts how well Larisa would walk, but by age 1½ she was on her feet! It was suggested that dance could help correct Larisa's pigeon-toed stride, as a form of physical therapy, and it "turned out" to be a huge help! Although Larisa had a lot of growing pains in her ankles while growing up, she never wanted to stop dancing once she got the "fever" for it!

You DO have the ability to achieve your dance goals, no matter what obstacles you may face. If you have the desire in your heart, take every opportunity to embrace your passion. It IS possible to learn, love, and live a dance-filled life!
